

Daily Operations & Site Progress Report

Mucheru World of Golf dam deepening & green sub-base profiling, Chaka Farms dairy & canine obedience unit, Kabete Residence glassroom completion & tank sanitization, Amani Cottage grounds, and DeKUT KFC CineHub launch with Kimathi Wildlife Conservancy tour.

DAM HAULAGE TRIPS

75 Trips

Excavated spoil transport

HEAVY MACHINERY RUN

17h 40m Total

Excavator: 9h 30m |
Loader: 8h 10m

CHAKA DAIRY YIELD

6 Litres

Morning: 4L | Evening: 2L

MAJOR MILESTONE

Glassroom
Done

Kabete lounge 100% completed

1. Mucheru World of Golf — Dam Works, Earthmoving & Greens Construction

Dam 1 wall smoothening, Dam 2 deepening, soil grading at Greens 5 & 7, hardcore rock breaking & red soil spreading on Greens 1–3

Overseen by: Mr. Gichuhi & Ken

Dam 1 Wall Smoothening, Dam 2 Deepening & Earthmoving Operations

- Dam 2 Deepening (Round 2):** Initial excavation of **Dam 2 is complete**. Operations progressed immediately into the **2nd round of deepening** the reservoir floor to maximize water retention capacity.
- Dam 1 Wall Smoothening:** Heavy grading was executed along the side slopes and basin walls of **Dam 1**, delivering a uniformly sloped, smooth earthen profile with clean curved contours.
- Earthmoving & Haulage Operations:** The tipper lorries accomplished a total of **75 haulage trips** of excavated soil and spoil from the dam basins to designated low areas.
- Heavy Machinery Operating Logs:** High machinery utilization was sustained throughout the day to meet excavation deadlines.

EQUIPMENT / RESOURCE	OPERATING TIME / VOLUME	OPERATIONAL SCOPE & ACTIVITY
Hydraulic Excavator	9 Hours 30 Minutes	Dam 2 deepening (2nd round) & tipper loading
Front Wheel Loader	8 Hours 10 Minutes	Dam 1 wall grading, murram pushing & spoil clearing
Tipper Lorry Haulage	75 Total Trips	Transport and dumping of excavated spoil across site

 [Dam 2: Deepening Basin Progress](#) 

Greens 1, 2, 3 & Greens 5, 7 Construction & Soil Profiling

- **Hardcore Rock Breaking (Greens 1, 2 & 3):** Ground teams utilized heavy sledgehammers to break dense hardcore foundation stones into compact sub-base stone beds.
- **Red Soil Spreading:** Wheelbarrows and shovels were deployed to spread rich red topsoil evenly over the broken hardcore foundation across **Greens 1, 2, and 3**.
- **Soil Levelling around Greens 5 & 7:** Extensive ground grading and soil levelling were executed in the surrounding apron zones of **Greens 5 and 7**, establishing continuous smooth grade transitions.

 [Soil Levelling around Greens 5 & 7 \(Clip 1\)](#)

Mucheru World of Golf Visual Documentation

Dam 1 Curved Wall Smoothing

Panoramic view of Dam 1 displaying clean, graded side slopes and flat reservoir floor after heavy machine grading.

Dam 1 Floor Grading & Compacting

Backhoe loader finishing the far embankment and basin floor, leaving smooth graded lines across the reservoir bed.

Excavated Spoil Haulage & Dumping

Tipper lorry discharging a high-volume load of dark excavated earth onto designated fill zones (75 trips completed).

Hardcore Rock Breaking — Greens 1–3

Crews breaking down large hardcore quarry rocks with sledgehammers to create a stable green sub-base foundation.

Red Soil Spreading over Green Sub-Base

Team using wheelbarrows and spades to distribute rich red topsoil atop the broken hardcore layers for Greens 1, 2, and 3.

Soil Levelling — Greens 5 & 7 Aprons

Broad levelled earth strip graded to smooth out terrain contours adjacent to the established grass on Greens 5 and 7.

2. Chaka Farms — Dairy Yield, Canine Unit, Timber

Haulage & Irrigation

Morning & evening milking logs, canine manners and off-leash socialization, golf timber transport, rooftop furniture setup & compound watering

Dairy Production & Milking Logs

Overseen by: **Kamandau**

PRODUCTION SESSION	MORNING MILKING	EVENING MILKING	TOTAL DAILY YIELD
Fresh Milk Yield	4.0 Litres	2.0 Litres	6.0 Litres

Canine Unit Training, Manners & Compound Irrigation

Overseen by: **Willy**

- **Kennel Manners & Facility Maintenance:** Kennel hygiene routines and impulse control exercises during feeding and stall exit.
- **Patience, Obeying & Listening Commands:** Advanced outdoor pack obedience training focusing on steady down-stays, calm waiting, and strict responsiveness to verbal cues.
- **Off-Leash Walking & Livestock Socialization:** Canine pack exercised off-leash in pastures, maintaining disciplined neutrality while socializing alongside grazing sheep and goats.

- **Home Compound Watering:** High-pressure rotary sprinkler system deployed to thoroughly irrigate the extensive turf lawns and landscaped compound grounds.

Farm Logistics, Timber Salvage & Guesthouse Rooftop Setup

Overseen by: **Kinoti**

- **Timber Posts Transport:** Cleared fallen tree timber logs and posts from the golf course development site were loaded onto tractor trailers and transported to Chaka Farms for farm fencing and repurposing.
- **Live-Edge Table Relocation:** Handcrafted live-edge hardwood tables with natural root base structures were transported and elevated to the guesthouse rooftop terrace.

Chaka Farms Visual Documentation

Canine Pack Down-Stay & Obedience

Five White Swiss Shepherds calmly executing synchronized down-stay commands on the farm lawn with handler supervising.

Compound Rotary Sprinkler Irrigation

High-pressure irrigation sprinklers covering the dry lawn and shaded compound areas to maintain turf moisture.

Felled Tree Timber Posts Transfer

Farm staff unloading neatly trimmed tree trunk posts from a red tractor trailer to stack in the farm yard for fencing.

Live-Edge Artisan Table Relocation

Two staff members in green uniforms carrying a solid polished live-edge hardwood table to the guesthouse rooftop.

3. Kabete Residence — Glassroom Completion, Tank

Sanitization & Site Works

Glassroom lounge completed & furnished, main water storage tank cleaning & flush, fireplace demolition, fence painting & pet care

Overseen by: **Njoki & Domestic Team**

✨ Glassroom Lounge & Dining Area — 100% Completed & Cleared

- **Full Completion & Commissioning:** The architectural glassroom sunroom lounge and dining extension has been **fully completed, cleaned, and furnished**.
- **Interior Styling & Arrangement:** Hardwood dining ensemble, modern sideboard with appliances, plush sectional couches, coffee table, and ceiling pendant lighting are all positioned in pristine condition.
- **Panoramic Garden Views:** Floor-to-ceiling glass sliding doors and full-height picture windows offer unobstructed views into the surrounding lush garden landscape.

Major Milestone: Glassroom Extension Ready for Use

Construction, glazing, painting, electrical fixtures, floor tiling, and full housekeeping are 100% complete. The room is fully cleared and operational.

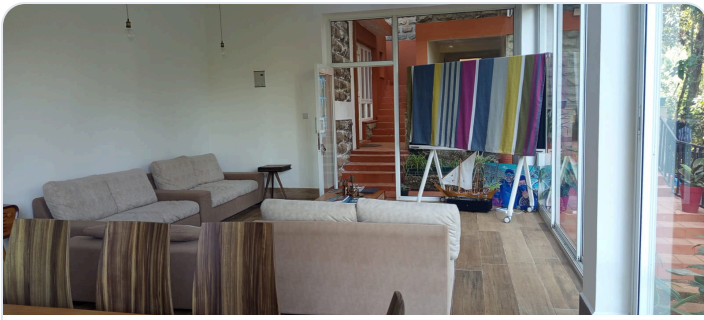

Main Storage Tank Washout, Fireplace Demolition & Paintworks

- **Main Water Storage Tank Deep Clean:** The main elevated water tank underwent a complete interior drain, manual descaling, and high-pressure chemical-free scrubbing of the tank walls, floor, float ball valve, and lid.
- **Drainage Line Flushing:** Gate valves and outlet pipes were disassembled, cleared of sediment buildup, and re-sealed with PTFE tape for watertight operation.
- **Outdoor Fireplace Demolition:** Demolition of the old outdoor brick fireplace proceeded with precision; reusable stone masonry blocks were cleanly salvaged and stacked, while the circular base foundation trench was excavated.
- **Boundary Fence Posts Paintworks:** Application of black weather-resistant protective enamel paint on metal fence posts mounted along the perimeter retaining wall.
- **Domestic Pet Care:** Routine evening feeding and welfare checks completed for resident dog **Ajabu the Golden Retriever** and the **resident cats (Aiko & Reo)**.

Kabete Residence Visual Documentation

Glassroom Lounge — Completed & Styled

Pristine view of the completed glassroom showing plush couches, wood-finish flooring, and glass doors opening to the patio.

Glassroom Dining Suite & Garden View

Modern 6-seat dining table and contemporary buffet sideboard situated next to the garden-facing glass picture window.

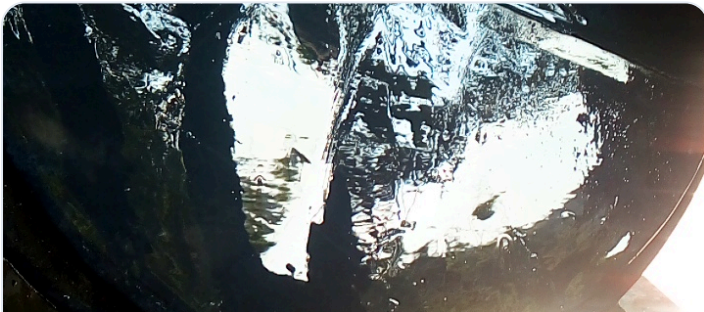

Glassroom Interior Perspective

View through the sliding glass entrance showcasing coffee table reading arrangements, deep lounge sofa, and natural lighting.

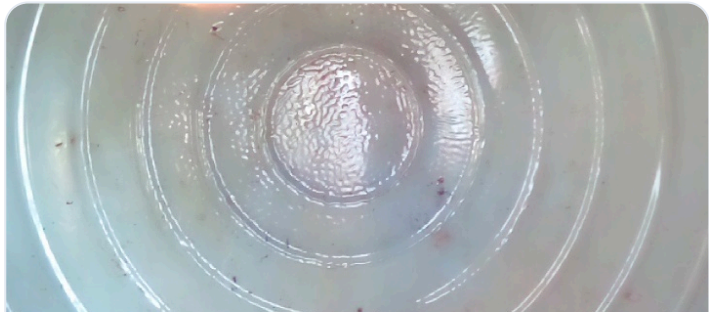

Storage Tank Drainage & Valve Service

Pipe wrench and gate valve fitting during drain-down and silt flushing at the base of the main water tank.

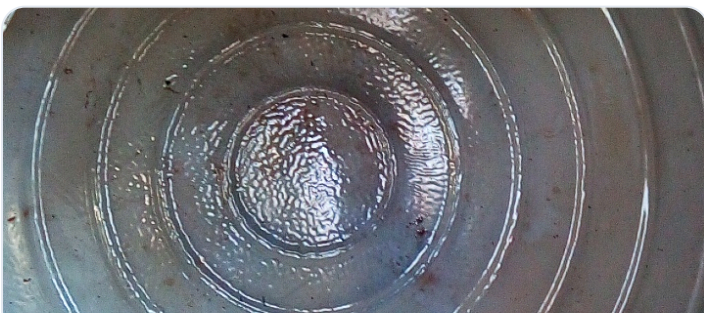

Main Tank Cover & Stand Washout

Black circular tank manhole lid thoroughly washed and rinsed clean on the elevated tank platform.

Inside Water Tank Sanitization

Top-down view inside the water reservoir showing concentric bottom rings and float valve during active descaling.

Sanitized Storage Tank Interior

Sparkling clean, sediment-free tank interior and float ball assembly following final fresh water rinse.

Manual Tank Lid Scrubbing

Close-up of worker using a stiff bristle hand brush and soapy water to scrub biofilm off the tank cover rim.

Fireplace Foundation Clearance

Circular ground trench and red earth cleared following demolition of the old masonry fireplace structure.

Salvaged Stone Blocks Stacking

Uniform dressed masonry stones carefully extracted from the demolished fireplace and stacked for future site reuse.

Perimeter Fence Post Painting

Painter applying durable black gloss anti-rust coating to boundary fence metal uprights along the hedge line.

Boundary Fence Line Protective Coating

Overview of perimeter concrete retaining wall displaying newly painted black steel fence posts against trees.

Domestic Pet Care — Ajabu's Dinner

Ajabu the resident Golden Retriever enjoying his evening dinner on the terracotta tiled verandah.

Domestic Pet Care — Resident Cats

Resident cats (Aiko, Reo & companion) enjoying their evening meal from stainless bowls along the wall.

4. Amani Cottage — Housekeeping, Deep Cleaning & Grounds Care

Housekeeping and room styling, upstairs stone balcony pressure scrub, potted snake plant irrigation & compound sweeping

Overseen by: **Grounds & Housekeeping Team**

Housekeeping, Balcony Power Washing & Plant Care

- **Upstairs Balcony & Front Door Washing:** The upper outdoor balcony patio and front entrance stone tile flooring were scrubbed down with soapy water and squeegeed clean alongside the rustic fireplace hearth.

- **Potted Snake Plant Irrigation:** Watered and pruned large potted snake plants (Sansevieria) and trailing foliage situated along the wooden balcony balustrades.
- **Thorough Interior Cleaning & Arrangement:** Deep cleaning across cottage interior living spaces, bedrooms, furniture dusting, and decorative arrangement.
- **Grounds Maintenance:** Compound perimeter sweeping and garden litter collection to keep lawns immaculate.

Upstairs Stone Balcony Scrubbing

Housekeeper thoroughly scrubbing the stone paved upper deck floor beside the stone chimney and potted plants.

Balcony Potted Plant Irrigation

Attendant carefully watering flourishing Sansevieria snake plants in rectangular planter boxes on the balcony.

5. DeKUT Theatre Launch, Wildlife Conservancy Tour & Property Visit

Commissioning of KFC CineHub Nyeri, Kimathi Wildlife Conservancy animal feeding, and VC & Council Chairman golf course tour

Honored Guests: **DeKUT VC & Council Chairman**

The KFC CineHub, Nyeri — Official Launch & Commissioning

- **Official Theatre Commissioning:** A distinguished visit was made to **Dedan Kimathi University of Technology (DeKUT)** for the grand opening and ribbon-cutting of **The KFC CineHub, Nyeri**, developed through a strategic collaboration between the **Kenya Film Commission (KFC)** and DeKUT to nurture Kenya's creative storytelling, animation, and cinema ecosystem.
- **Ceremonial Events & Screenings:** The commissioning ceremony featured official plaque unveiling, speeches, two short film screenings, and vibrant student cultural Kikuyu theatrical performances.
- **Commemorative Gift Exchange:** Following the launch, Mr. Joe Mucheru was formally presented with a gift pack of premium **Grade AA DeKUT Coffee** by the DeKUT Council Chairman and Vice Chancellor in the university boardroom.

📺 **DeKUT Theatre: Student Cultural Kikuyu Performance**

Kimathi Wildlife Conservancy Tour & Golf Property Visit

- **Kimathi Wildlife Conservancy Tour:** The Vice Chancellor and Council Chairman personally hosted **Mr. Joe Mucheru and Dennis** on an exclusive wildlife tour of the Kimathi Wildlife Conservancy, viewing and hand/bottle-feeding young giraffes and llamas.
- **Return VIP Golf Course Tour:** Following the conservancy tour, the DeKUT Vice Chancellor and Council Chairman visited Mr. Mucheru's property, receiving an extensive guided walking tour of the ongoing golf course earthmoving, dams, and fairway developments.
- **Afternoon Tea at Residence:** The official university engagement and site visit concluded with hospitality and afternoon tea at the residence.

 **Kimathi Conservancy: Bottle-Feeding Milk to Baby Giraffe** 

 **Kimathi Conservancy: Hand-Feeding Giraffe with DeKUT VC & Chairman**
