

Daily Operations & Project Summary

Comprehensive overview of site development, livestock care, and facility maintenance.

GOLF PROJECT

10 Workers

Green 9 & Green 4

DAILY MILK PRODUCTION

7.5 Litres

Morning: 4.5L | Evening: 3L

TOTAL LIVESTOCK

124 Head

All healthy

CANINE CARE: COBY

Resting

Still recovering – no training

1. Golf Project (Mucheru World of Golf)

Construction, deliveries, site visits, and architectural marking

Overseen by: **Ken**

Construction & Groundwork Progress

All activities were carried out with **10 workers** across **Green 9** and **Green 4**.

- **Levelling Hardcore:** The hardcore base was carefully leveled to ensure a uniform and stable foundation across the green construction area.
- **Installing PVC Pipes:** PVC drainage and irrigation pipes were measured, cut, and installed according to the site layout plan.
- **Applying Ballast:** A layer of ballast was applied over the prepared surface to strengthen the sub-base and improve drainage performance.
- **Sand Delivery:** A sand truck delivery arrived on site. The sand was received and offloaded for upcoming construction and layering works.
- **Pumice Delivery:** One full lorry of pumice was delivered to the site for use in upcoming green layering.

Site Visit & Architectural Works

- **Site Visit:** **Joe Kamau** and **Caroline** visited the project site during the day to review progress and provide guidance.

- **Clubhouse Marking:** Architect **Kevin Njoroge** attended the site and marked out the clubhouse location and dimensions as per the approved plans.

Clubhouse Marking by Architect Kevin Njoroge

Clubhouse Marking (1)

Marking out the clubhouse location on site.

Clubhouse Marking (2)

Measuring and setting out clubhouse dimensions.

Clubhouse Marking (3)

Reference points established for structural layout.

Clubhouse Marking (4)

Dimensional alignment verified on site.

Clubhouse Marking (5)

Final boundary markers placed for the clubhouse footprint.

Site Work Visual Documentation

Levelling Hardcore

Hardcore base leveled for a uniform foundation.

PVC Pipe Installation

Drainage and irrigation piping laid across the site.

PVC Pipe Installation (Detail)

Close-up of pipe fitting and alignment work.

PVC Pipe Installation (Progress)

Additional pipe sections connected and secured.

Ballast Application

Ballast layer applied to reinforce the sub-base.

Sand Truck Delivery

Sand delivery received and offloaded on site.

Pumice Delivery (1 Lorry)

Full lorry of pumice received for green layering works.

Sand Delivery Video

A video of the sand truck delivery was recorded:

2. Farm Activities (Chaka Farms)

Dairy production, facility upkeep, and canine unit management

Dairy & Farm Maintenance

Overseen by: **Kamandau**

- **Milk Production Summary:**
 - • **Morning Yield:** 4.5 litres
 - • **Evening Yield:** 3.0 litres
 - • **Total Daily Milk Collected:** 7.5 litres
- **Cow Pen Cleaning:** General cleaning of the cow pen was completed to maintain a hygienic environment for the livestock.
- **Palm Tree Irrigation:** Watering of the palm trees across the compound was carried out to support healthy growth.
- **Cattle Spraying:** All cattle were sprayed as part of routine pest and parasite control measures.

Farm Activities Visual Documentation

Cow Pen Cleaning

General cleaning completed for a hygienic livestock environment.

Watering Palm Trees

Compound palm trees irrigated for healthy growth.

Cattle Spraying

Routine pest and parasite control spraying completed.

Canine Health & Training Update

Overseen by: **Willy**

- **Kennel Sanitation:** Kennels were thoroughly cleaned and the dogs were provided with fresh, clean water.
- **Dog Health Check-up:** Routine health inspection was carried out on all dogs.
- **Off-Leash Walking:** Dogs were walked off-leash together with the goats. The session went well overall, though **Zara** requires additional practice to improve her behaviour during group walks.
- **Obedience & Commands:** All dogs demonstrated good obedience and patience during command drills.
- **No Jumping Drill:** The "no jumping" exercise was practised successfully.

Recovery Update: Canine "Coby"

Coby has not yet fully recovered from the soreness identified earlier. As a precaution, no training was conducted on him today. He continues to rest and is being closely monitored.

Training Video Footage

Two training session videos were recorded during today's session:

 [Dog Training Session 2](#)

3. Livestock Headcount & Health Status

Full census of all farm animals — all livestock confirmed healthy

Current Livestock Census

ANIMAL	COUNT	NOTES
Cows	8	All healthy
Calves	5	All healthy
Goats	86	All healthy
Goat Kids	12	All healthy
Doper Sheep	9	All healthy
Geese	2	1 laying on 5 eggs
Chicken (Cocks)	2	All healthy

ANIMAL	COUNT	NOTES
Total Livestock	124	All healthy

 Expecting Animals

 **Expecting Cows:** 1 — Thabu

 **Expecting Goats:** None

 Livestock Visual Documentation

Cows (8)

All cows accounted for and in good health.

Calves (5)

All calves healthy and thriving.

Goats (86)

Full goat herd accounted for.

Goat Kids (12)

All goat kids healthy and active.

Doper Sheep (9)

All doper sheep in good condition.

Geese (2)

One goose currently laying on 5 eggs.

Expecting Cow — Thabu

Thabu is the sole expecting cow on the farm.

4. Meeting Report — July 30, 2026

Reference to prior operations meeting held on site

Meeting Summary

A meeting was held on **July 30, 2026** to review ongoing operations, project milestones, and upcoming priorities across Mucheru World of Golf and Chaka Farms.

No photographs were taken during the meeting. However, full meeting minutes have been documented and are available for review via the link below.
