

Daily Operations & Project Summary

Comprehensive overview of site development, livestock care, and facility maintenance.

GOLF PROJECT

Greens 3, 5 & 7

Topsoil stripping & weeding

DAILY MILK PRODUCTION

6.0 Litres

Morning: 3.5L | Evening: 2.5L

CANINE TRAINING

Coby Returned

Spin & sit commands learned

SITE UPKEEP

Plumbing & Manure

Burst pipe fixed & tractor transport

1. Golf Project (Mucheru World of Golf)

Topsoil stripping on Green 3, earthmoving, and green weeding

Overseen by: **Ken**

Green Construction & Earthworks

- **Topsoil Stripping (Green No. 3):** Topsoil stripping operations were actively executed on Green No. 3 to prepare the sub-base layer.
- **Earthmoving & Topsoil Transport:** Stripped topsoil from Green No. 3 was moved and stockpiled at the designated site location.
- **Greens Weeding:** Comprehensive weeding and maintenance were carried out across **Green No. 5** and **Green No. 7** to maintain clean turf conditions.

Golf Project Visual Documentation

Topsoil Stripping — Green No. 3

Stripping topsoil layer on Green 3.

Moving Stripped Topsoil

Transporting and stockpiling topsoil.

Weeding — Greens 5 & 7

Weeding operations on Green 5 and Green 7.

Weeding Operations (Detail)

Manual weeding to maintain clean turf beds.

2. Farm Activities & Infrastructure (Chaka Farms)

Dairy, plumbing repairs, manure transport, irrigation equipment, and canine unit

Dairy Production

Overseen by: **Kamandau**

• Milk Production Summary:

- **Morning Yield:** 3.5 litres
- **Evening Yield:** 2.5 litres
- **Total Daily Milk Collected:** 6.0 litres

Plumbing Maintenance & Repairs

Overseen by: **Ken**

- **Office Washrooms Plumbing Repair:** Plumbing repair works were conducted on the washrooms adjacent to the main office as well as the supply pipe network behind the facility to resolve a burst pipe issue and restore full water service.

Plumbing Repair Visual Documentation

Burst Pipe Identified

Locating the damaged water pipe behind washrooms.

Fixing Burst Pipe

Ongoing plumbing repair and pipe replacement.

Burst Pipe Repair Complete

Plumbing repair completed and water flow restored.

Manure Logistics & Shamba Enhancement

Overseen by: **Ken**

- **Manure Transport:** Accumulated organic manure was cleared from the livestock shelter, loaded onto the tractor, and transported directly to the shamba for soil enrichment.

Manure Transport Visual Documentation

Loading Manure

Loading manure from the livestock shelter.

Tractor Transporting Manure

Moving loaded manure across the farm to the shamba.

Unloading onto Shamba (1)

Distributing organic manure across shamba soil.

Unloading onto Shamba (2)

Spread completed for crop soil fertilization.

Deliveries & Irrigation Equipment

- **Rain Hose Pipes Received:** 4 rain hose pipes were delivered to the site to enhance perimeter fence line irrigation and turf hydration.

Rain Hose Pipes (4 Coils)

Irrigation rain hose pipes delivered for perimeter watering.

Canine Health & Training Update

Overseen by: **Willy**

- **Health Inspection & Sanitation:** Daily health check conducted; all kennels cleaned and filled with clean drinking water.
- **Socialization & Off-Leash Walking:** Dogs were taken for off-leash walking together with the goat herd as they grazed and browsed in the field.
- **Obedience & Follow Drills:** The dogs performed exceptionally well during following and obedience exercises.
- **New Skill Acquisition:** Dogs successfully learned and executed **spin** and **sit** commands during today's training session.

Canine Health & Recovery Notes

Coby: Has fully recovered from previous soreness and has **returned to active training** with the team!

Logan: Ate his protective cone overnight. He remains under close observation and wound care treatment.

Recorded Training Video Footage

Training session video clips recorded today:

Canine Health Documentation

Logan — Protective Cone Update

Logan damaged his cone overnight; monitored closely for wound protection.

3. Strategic Engagements & Institutional Partnerships

High-level institutional outreach and collaboration discussions

Courtesy Visit to Dedan Kimathi University of Technology (DeKUT)

- **Institutional Outreach:** A formal courtesy visit was conducted to **Dedan Kimathi University of Technology (DeKUT)** to explore strategic collaboration opportunities between the University, **Mucheru World of Golf**, and **Chaka Farms**.
- **Delegation:** The visit was led by **Mr. Mucheru (Boss)** and **Dennis Ndirangu**.
- **Strategic Objectives:** Discussions focused on strengthening university-industry collaboration to provide practical learning opportunities, develop locally designed technologies, enhance the golfing experience, and drive joint research, commercialization, and innovation partnerships.
