

Daily Operations & Project Summary

Comprehensive overview of site development, livestock care, and facility maintenance.

GOLF PROJECT
DELIVERIES

36 Items

Pipes, Conduits &
Connectors

DAILY MILK
PRODUCTION

5.0 kg

Morning: 2kg | Evening:
3kg

ANIMAL FEED STOCK

80 kg

Joymax, Salt & Mineral
Sup.

CANINE CARE STATUS

Monitored

Coby resting / protective
cone

1. Golf Project (Mucheru World of Golf)

Ground prep, soil layering, and material delivery updates

Overseen by: **Ken**

Key Earthwork & Foundation Progress

- Base Compacting:** Systematic compacting of base stones completed to establish a firm structural sub-foundation.
- Red Soil Leveling:** Fine grading and precision leveling of imported red soil across the designated area.
- Moisture Barrier Installation:** Heavy-duty polythene sheet lining laid seamlessly over the leveled surface prior to sub-layering.

Material Deliveries & Inventory Verification

All incoming plumbing and electrical conduit supplies were received, counted, and safely stored on site.

ITEM DESCRIPTION	QUANTITY RECEIVED	CATEGORY / NOTES
PVC Pipes	26 units	Drainage & Irrigation lines
Red Soil	6 per green	Total 12
Pipe & Conduit Connectors	10 units	Joint fittings & adaptors
Polythene Paper Rolls	Full supply batch	Underlayment moisture barrier

Site Work & Materials Visual Documentation

Ground Preparation & Polythene Layer

Stone compacting, soil leveling, and polythene membrane installation.

Red Soil Placement

Red soil delivered, spread, and leveled across the site area.

PVC Pipe Delivery (26 Units)

Plumbing and drainage pipes received and sorted.

Fittings & Connectors (10 Units)

Pipeline connectors and joint fittings checked into stock.

2. Farm Activities (Chaka Farms)

Dairy production, livestock nutrition, utilities, and canine unit management

Dairy & Feeding Management

Overseen by: **Kamandau**

- **Pen Hygiene:** Complete sweeping and sanitation of the goat shelter prior to morning milking routines.
- **Milk Production Summary:**
 - ● **Morning Yield:** 2.0 kg
 - ● **Evening Yield:** 3.0 kg
 - ● **Total Daily Milk Collected:** 5.0 kg
- **Feed Supplies & Nutrition Replenishment:**
 - ● **Purchased Joymax Animal Feed:** 70 kg
 - ● **Additional Malt Madini Supplement:** 5 kg
 - ● **Additional Magadi Salt Mineral Block:** 5 kg

Vehicle Care & Water Distribution

Overseen by: **Kinoti**

- **Vehicle Maintenance:** Washing the Boss's car to maintain cleanliness and upkeep.
- **Water Distribution:** Checking on and monitoring water distribution across the site.

Solar Cleanliness & Lawn Irrigation

Overseen by: **Kinoti & Willy**

- **Solar Array Maintenance:** Cleaned all solar panel surfaces to ensure optimal solar efficiency and power generation.
- **Irrigation Setup:** Positioned and calibrated lawn sprinklers across the compound grass to maintain turf hydration.

Canine Health & Training Update

Overseen by: **Willy**

- **Kennel Sanitation:** Standard cleaning of dog kennels, followed by thorough drying of water puddles and floor surfaces.
- **Exercise & Routines:** Scheduled walking exercise carried out for the security and companion dogs.
- **Behavioral Training:** Practiced "PAW" commands, kennel etiquette, structure, and general obedience drills.

Veterinary Care Notice: Canine "Coby"

During routine health check, minor skin soreness was observed on Coby. To prevent aggravation or irritation, Coby has been temporarily rested from active training sessions and fitted with a protective Elizabethan cone to prevent licking the affected area.

Canine Health Inspection Photos

Health Assessment Photo 1

Initial inspection of sore area on Coby.

Health Assessment Photo 2

Close-up view of skin observation for treatment.

Protective Cone Care

Coby fitted with protective cone and resting comfortably.
