

Daily Operations & Project Summary

Comprehensive overview of site development, livestock care, and facility maintenance.

GOLF SITE ACTIVITIES

5 Tasks

Greens, Pipes, Welding & Trees

DAILY MILK PRODUCTION

7.0 litres

Morning: 4L | Evening: 3L

CANINE TRAINING

6 Disciplines

Obedience, Paw, Potty & more

COBY RECOVERY STATUS

Healing

Wound improving / resting today

1. Golf Project (Mucheru World of Golf)

Green construction, pipe works, welding, and site clearing updates

Overseen by: **Ken**

Green Construction & Earthwork Progress

- Green No. 9 — Hardcore Complete:** Full breaking and levelling of hardcore on Green No. 9 has been completed, with the base now ready for the next phase of construction.
- Green No. 4 — Levelling In Progress:** Levelling work on Green No. 4 is ongoing and yet to be completed. Crews are continuing to grade and shape the surface.

Pipe Works & Fabrication

- PVC Pipe Slitting:** Precision slitting of PVC pipes carried out on site for drainage and irrigation line preparation.
- Welding of Work Tools:** On-site welding and repair of work tools to maintain equipment readiness and operational efficiency.

Site Clearing & Tree Management

- Delimbing & Foliage Removal:** Felled trees across the site perimeter were delimbed and foliage cleared to open up the construction zone and improve site accessibility.

Site Work Visual Documentation

Green No. 9 — Hardcore Done

Breaking and levelling of hardcore fully completed on Green No. 9.

Green No. 4 — Levelling In Progress

Ongoing levelling and grading work on Green No. 4.

PVC Pipe Slitting

Precision cutting of PVC pipes for drainage installation.

PVC Pipes — Slitted & Ready

Completed slitted PVC pipes prepared for drainage layout.

Welding of Work Tools

On-site welding and repair of construction tools and equipment.

Tree Delimbing — Overview

Felled trees delimbed with foliage cleared from the work area.

Crew Clearing Felled Trees

Workers actively removing branches and clearing the perimeter.

Foliage Removal Progress

Cleared foliage alongside the red soil construction zone.

2. Farm Activities (Chaka Farms)

Canine training & health, dairy production, and palm tree maintenance

Canine Health, Training & Behavioural Update

Overseen by: **Willy**

- **Morning Cleaning:** Full kennel cleaning and sanitation completed in the morning before training sessions.
- **Health Check-up:** All dogs inspected — all were in good condition except Coby (see recovery note below).
- **Kennel Manners:** Dogs trained on proper kennel etiquette, entry/exit discipline, and structured rest behaviour.
- **Off-Leash Walking:** Dogs walked off-leash alongside the goats — all were well behaved and maintained knee position throughout.
- **Socialisation & Obedience:** Structured socialisation exercises and general obedience drills conducted with all dogs.
- **Paw Commands:** All dogs put through paw command training in the morning session — good response across the group.
- **Potty Training:** Ongoing potty training continued — dogs are responding well to designated areas.
- **No Jumping:** Anti-jumping discipline reinforced to maintain proper greeting and interaction behaviour.

✓ Recovery Update: Canine "Coby"

Coby's wound is healing well. As a precaution, he was rested from today's training session and continues to be monitored. No further treatment was required today.
